30 July 2026

ASX ANNOUNCEMENT

ASX:WSR

Quarterly Activities Report and Appendix 5B
June Quarter 2026

HIGHLIGHTS

Bunda Creek

- ***NT Government funding awarded under the Geophysics and Drilling Collaborations program to co-fund an airborne magnetic survey in the frontier Birrindudu Basin.***
- ***The airborne magnetic survey to cover 569km^2 of the Bunda Creek Project is due to be completed during the next Quarter.***

Jerrys Bore

- ***A program of 1,218 soil samples was completed during the Quarter to test prospective parts of E38/4032.***
- ***Assay results are expected to be received during the next Quarter.***

Mount Strawbridge

- ***First reconnaissance visit to a recent tenement application (E38/4304) in the NE Goldfields region was conducted.***

Gidgee North

- ***Negotiations are continuing for a Heritage Protection Agreement to pave the way for further exploration at the Mageye anomaly.***

Corporate

- ***Cash in bank: $1.847M as of 30 June 2026***
- ***Gold & copper projects reviewed but none identified as meeting key criteria***

Westar Resources Limited (ASX: **WSR**) (**Westar** or the **Company**) is pleased to present its Quarterly Activities Report and Appendix 5B for the period ending 30 June 2026.

Exploration Activities and Project Updates

Bunda Creek (NT)

In 2025 Westar lodged an application for a new Exploration Licence in the frontier Birrindudu Basin in the Northern Territory[5] (Figure 1). The tenement, EL34118, was granted on 14 January 2026 for a term of six years.

Recent studies by the Northern Territory Geological Survey (NTGS), CSIRO, and Geoscience Australia (GA) highlight the prospectivity of the basin for copper[6,7]. Their novel work has provided evidence that a copper source is present, that oxidised basinal fluids have leached copper from the basement geology, and that a suitable reductant is present in the lower part of the succession (Amos Knob Formation). This ongoing work highlights the Birrindudu Basin as a potential new frontier district for copper mineralisation.

During the March quarter, Russell Mortimer from Southern Geoscience produced 3D inversion models for the enhanced reprocessed publicly available airborne magnetic data from EL34118 and the surrounding area. The models show several steep, north-northwest-trending magnetic gradients, at least one of which does not correspond with any mapped features. After reviewing the inversion models, on 9 March 2026, Westar lodged an application for EL34358 adjoining granted EL34118 (Figure 1).

During the June quarter, the Company applied for and was successful in receiving NT Government funding under the Geophysics and Drilling Collaborations Program to undertake an airborne magnetics survey over a 569km^2 portion of the Bunda Creek Project. This survey will provide high-resolution data to assist with further targeting work at the project.

The airborne magnetic survey is anticipated to be completed during the September 2026 Quarter.

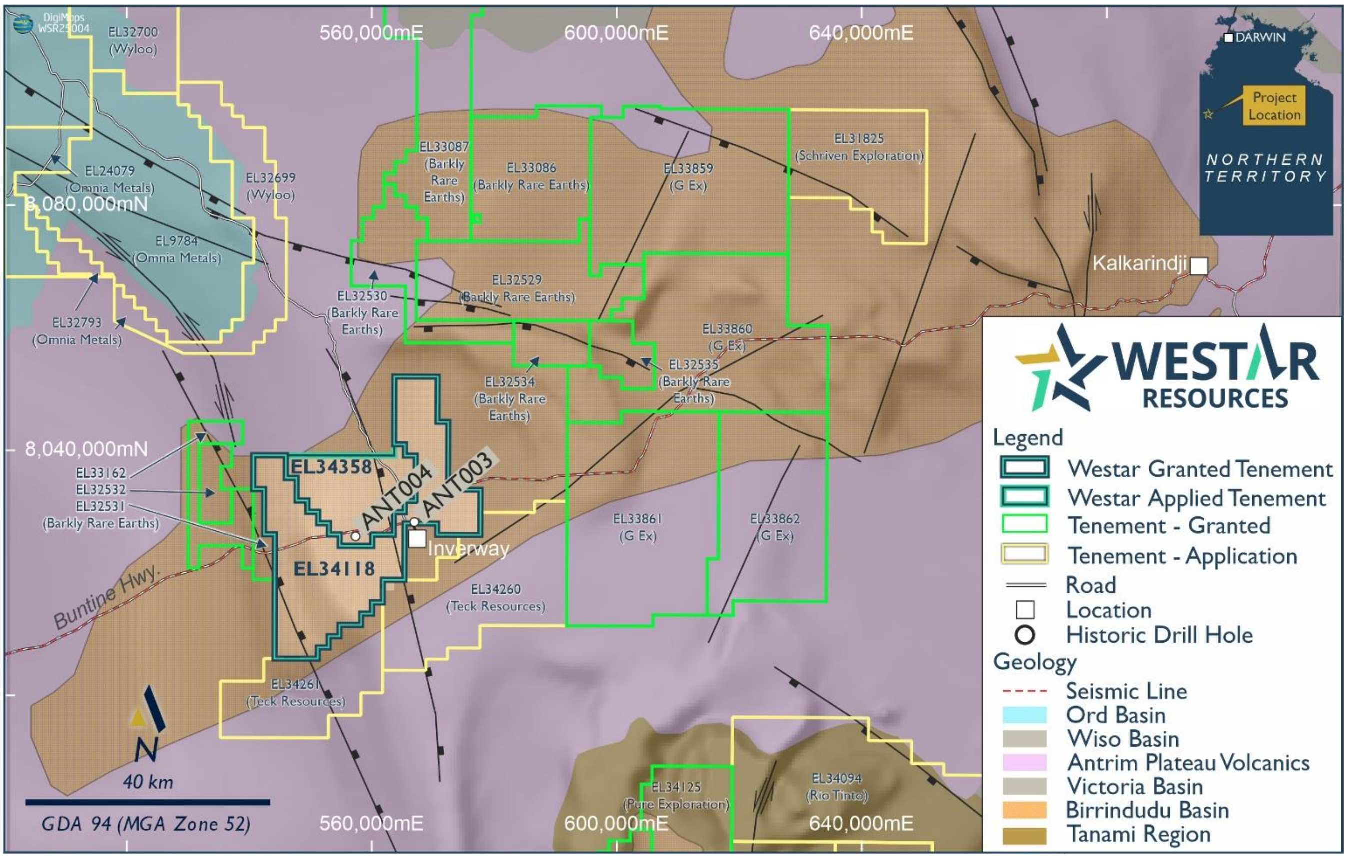

Figure 1. Simplified geology of EL34118 and ELA34358 and surrounds. Tenements are plotted on the NTGS 1:2,500,000 geology regions. The structures and underlying basement topography are from SEEBASE [8].

Jerrys Bore (WA)

The Jerrys Bore project comprises a single 67-block Exploration Licence (E38/4032, granted 16 April 2026) in the NE Goldfields about 165km north of Laverton in the Mt Margaret Mineral Field. The licence covers part of the poorly exposed Deleta greenstone belt in the Burtville Terrane. The area covers a strike length of more than 20km along and adjacent to the De La Poer Fault, a major north-northwest–trending fault. Much of the area is covered by aeolian sands.

Other than some RAB and AC holes in the far north of the licence area, there has been no previous drilling. Breaker Resources identified some low-level gold and arsenic anomalies in shallow auger holes[9] but never progressed to infill sampling or drilling any targets.

In the previous quarter, Westar contracted Southern Geoscience Consultants to produce a structural interpretation of the 100m line-spaced aeromagnetic data flown by Breaker Resources, which highlighted areas of structural complexity on the west side of the main fault, albeit with lower As values (Figure 2).

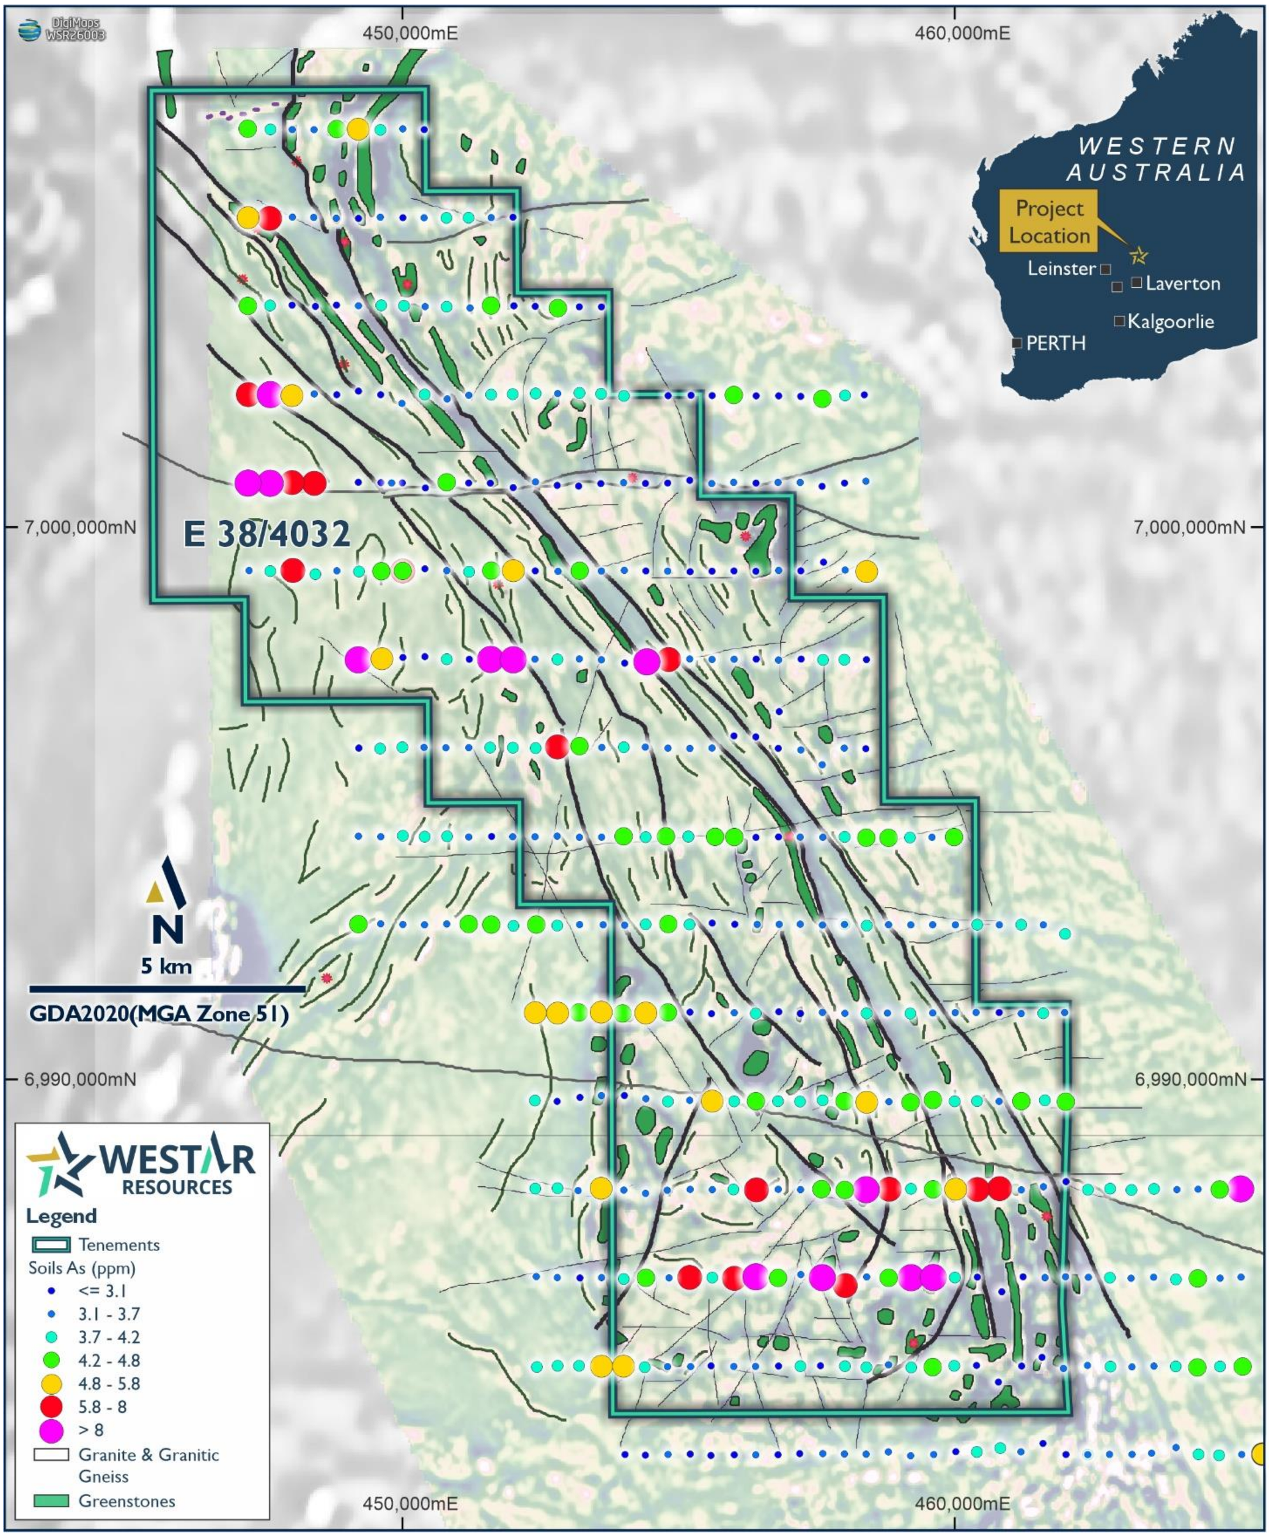

Figure 2. Location of the Jerrys Bore tenement and a preliminary interpretation of 100m line-spaced airborne magnetic data by Southern Geoscience Consultants in conjunction with Westar. The background image is the RTP1VD over a greyscale RTP2VD. Note that the geophysical interpretation is yet to be meaningfully tested by drilling.

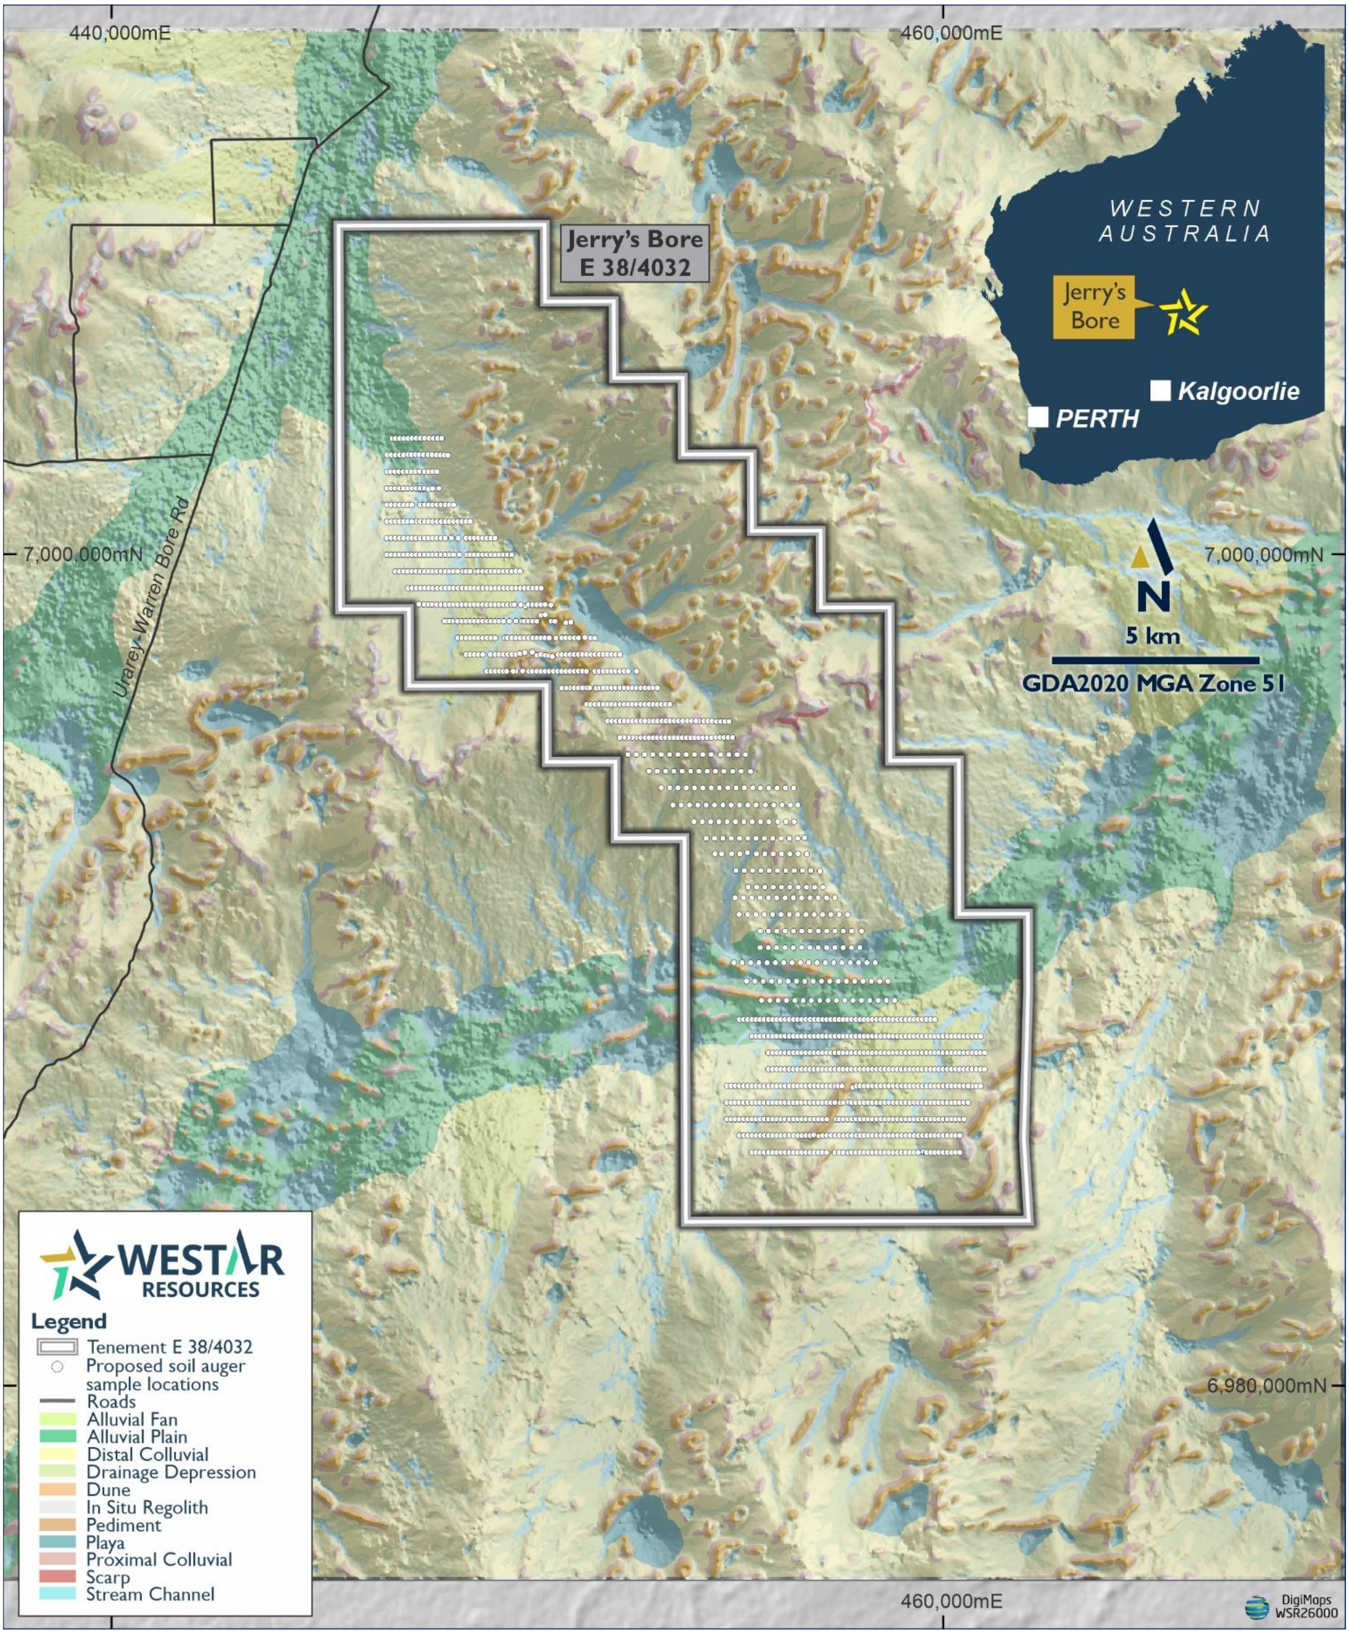

Figure 3. Regolith–landform model of E38/4032 and surrounds draped on a shaded relief image using resampled 30m TanDEM data. The model was produced by a consultant, Dr Rich Langford.

A regolith-landform model for E38/4032 was produced by a remote sensing and mapping consultant, Dr Rich Langford (Figure 3). The model was prepared using TanDEM satellite elevation data[10] coupled with multispectral and radiometric imagery. The model was combined with the new DEM from Aerometrex to refine the positions of some samples in the soil sampling program.

During the Quarter a 1,218 sample ultrafine soil sampling program was completed at the project (Figure 3). Samples are currently at LabWest being assayed with results expected to be received during the September Quarter. Soil sampling results will allow a detailed assessment of the potential of the project to host significant mineralisation to be completed.

Mount Strawbridge (WA)

During the December 2025 quarter, Westar lodged an application for a 43-block Exploration Licence (E38/4034) in the NE Goldfields about 160km northeast of Laverton and about 90km northwest of the Gruyere mine in the Mt Margaret Mineral Field. The applied area lies a little over 5km west of the Yamarna Fault System, a broad crustal-scale fault system that separates the Burtville Terrane from the Yamarna Terrane to the east. The tenement application is cut by several faults subparallel to the Yamarna Fault System.

A reconnaissance visit was carried out in March 2026 to meet pastoralists, assess the vehicle access, and make observations on the landforms and regolith that would influence the design of any soil sampling programs.

Gidgee North Project (WA)

The Gidgee North Project is located approximately 640 km northeast of Perth and 100km southeast of Meekatharra in the Murchison region of Western Australia (Figure 4). The project comprises tenements E53/1920 and E51/2032, and the Geoff Well farm-in project E53/1832-I, which hosts the Mageye anomaly.

Assays from two RC holes drilled in the March 2025 quarter at the Mageye prospect returned strongly anomalous molybdenum, bismuth, and tungsten values with peak values of 985ppm Mo, 858ppm Bi, and 98ppm W in one of the holes[1]. Although no gold anomalism or mineralisation was intersected in the two holes, such intrusion-related systems may be accompanied by gold mineralisation as at, for example, Mt Mulgine about 110km east-northeast of Three Springs[2]. Furthermore, the cause and nature of the Bi anomaly at Mageye has yet to be explained.

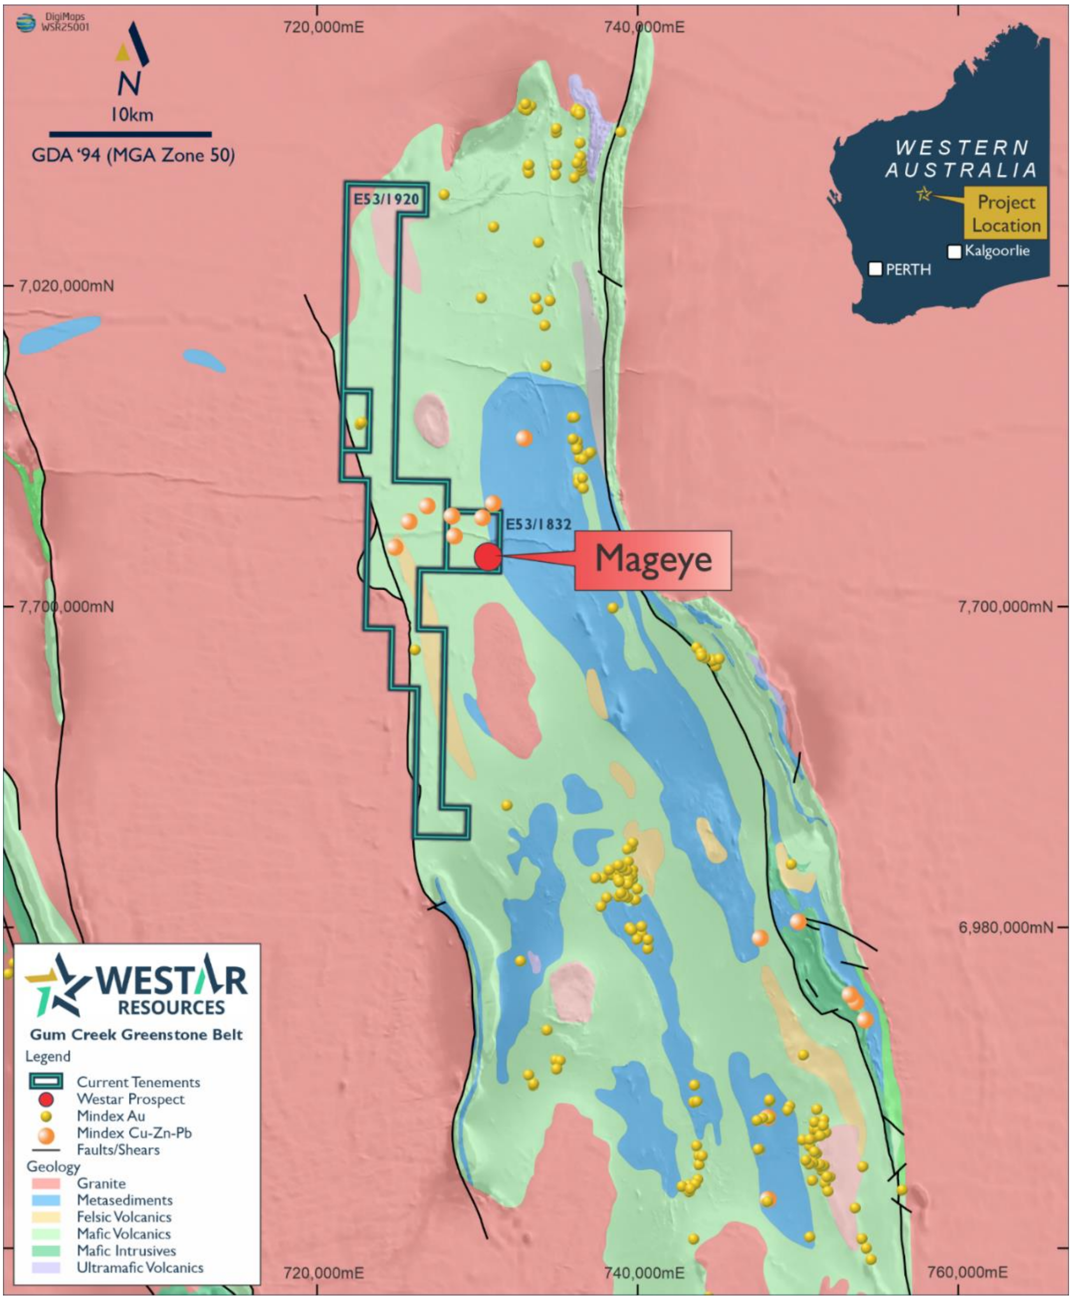

Figure 4. Location of the Gidgee North Project and the Mageye anomaly

The Company has planned a program of air core drilling across Mageye (Figure 4) to obtain bedrock samples for pathfinder geochemistry. These data will be used to target any gold-rich parts of the system and to better understand the nature of the Bi anomalism. Westar is currently negotiating a Heritage Protection Agreement with the Tarlka Matuwa Piarku (Aboriginal Corporation) to pave the way for a Heritage Survey at Mageye. The Company is hoping to carry out the program in the second half of 2026.

Mt Finnerty Project, Yilgarn WA (Gold): JV 75% Ramelius Resources, 25% WSR

The Mt Finnerty Project (E16/505) is located about 430km east-northeast of Perth and 100km northeast of Southern Cross in the Archean Marda–Diemals greenstone belt. Mt Finnerty is a Joint Venture with Ramelius Resources Ltd (ASX: 'RMS') in which Westar holds a 25% free-carried interest until a decision to mine is made, at which point Westar can either contribute to ongoing expenditure or dilute its interest in the project.

Ramelius has carried out a significant number of drill programs at Mt. Finnerty, achieving multiple high grade gold intercepts which remain open along strike and at depth in places.

The Company notes on 29 June 2026, Forrestania Resources Limited (ASX: FRS) announced a binding agreement with Ramelius Resources Ltd (ASX: 'RMS') to acquire the Edna May Gold Hub, which includes Ramelius' 75% joint venture interest in the Mt Finnerty Project. The transaction remains subject to conditions precedent expected to be completed in Q3 CY2026.

New Advanced Projects (Gold-Copper focus)

During the reporting period, Westar continued to search for advanced projects with a focus on (but not limited to) gold and copper, located predominantly in the supportive jurisdictions of Australia, Canada, and the USA. Numerous projects were assessed during the quarter but did not meet key criteria that would provide value to shareholders. The search will continue in the current quarter the right project to transform the Company from explorer to developer.

Corporate Activities

During the previous quarter, the Company announced a capital raise through CPS Capital Group Pty Ltd (CPS), to raise $1,490,000 (before costs) through a placement of 40,000,000 shares at an issue price of $0.006 each (Tranche 1) and 250,000,000 shares at an issue price of $0.005 each (Tranche 2). Tranche 1 was completed on 26 February 2026 via the issue of 40,000,000 shares raising $240,000 (before costs). Tranche 2 was approved by shareholders at the Company's General Meeting (GM) on 17 April 2026 and subsequently issued on 8 May 2026, raising $1,250,000 (before costs).

On 26 May 2026, David Palumbo was appointed as Non-Executive Director and Company Secretary replacing Ben Donovan.

Quoted Capital

- 808,002,057 Shares on issue (ASX:WSR).

Unquoted Capital

- 120,600,000 Unlisted options and performance rights with various hurdles and exercise prices.

Cash Position and Appendix 5B

Westar had total cash reserves of $1.847M at quarter-end.

In accordance with ASX Listing Rule 5.3.1, the Company advises that during the quarter it incurred a total of approximately $193,000 on exploration and evaluation activities. This comprised:

- $24,000 in payments for exploration and evaluation activities included under cash flows from operating activities in the Appendix 5B section 1.2(a); and
- $169,000 in capitalised exploration and evaluation expenditure, included under cashflows from investing activities in the Appendix 5B section 2.1(d).

The expenditure related to:

- ongoing work programs across the Company's projects;
- evaluation and due diligence on projects for acquisition of joint venture by the Company.

No substantive costs were incurred on mining and development activities during the quarter (ASX Listing Rule 5.3.2).

As per the Appendix 5B Section 6.1, payments to Directors of the Company for the quarter was $112K consisting of gross wages, fees and superannuation.

June 2026 Quarterly Announcements

This Quarterly Activities Report contains information extracted from Westar's ASX market announcements reported in accordance with the 2012 edition of the "Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves" ("2012 JORC Code"). Further details (including 2012 JORC Code reporting tables where applicable) of exploration results and additional information referred to in this Quarterly Activities Report can be found in the following announcements lodged on the ASX:

- 15 April 2026 — Quarterly Activities/ Appendix 5B Cash Flow Report
- 17 April 2026 — Results of Meeting
- 8 May 2026 — Application for quotation of securities - WSR
- 8 May 2026 — Notification regarding unquoted securities - WSR
- 8 May 2026 — Cleansing Notice
- 27 May 2026 — Appointment of NED and Change of Company Secretary
- 28 May 2026 — Final Director's Interest Notice
- 28 May 2026 — Initial Director's Interest Notice
- 16 June 2026 — NT Government Grant awarded to Westar's Bunda Creek Project
- 22 June 2026 — Change of Share Registry

ENQUIRIES

Eddie King, Non-Executive Director | admin@westar.net.au | Ph: (08) 9481 0389

The information in this announcement that relates to Exploration Results is based on, and fairly represents, information compiled by Andrew Jones, a Competent Person who is a Registered Member of the Australian Institute of Geoscientists and Australasian Institute of Mining and Metallurgy. Andrew provides consultant geological services to Westar Resources Ltd and has sufficient experience that is relevant to the style of mineralisation and type of deposit under consideration and to the activity that he has undertaken to qualify as a Competent Person as defined in the 2012 edition of the JORC Code. Andrew consents to the inclusion in the report of the matters based on his information in the form and context in which it appears.

The information that has been extracted from prior announcements referred to in this release, are available to view on https://westar.net.au/. The company confirms that it is not aware of any new information or data that materially affects the information included in the original market announcement and, in the case of exploration results, that all material assumptions and technical parameters underpinning the estimates in the relevant market announcement continue to apply and have not materially changed. The company confirms that the form and context in which the Competent Person's findings are presented have not been materially modified from the original market announcement.'

Forward-Looking Statements

This document may include forward-looking statements. Forward-looking statements include, but are not limited to, statements concerning Westar Resources Limited's planned exploration program and other statements that are not historical facts. When used in this document, the words such as "could," "plan," "estimate," "expect," "intend," "may", "potential," "should," and similar expressions are forward-looking statements. Although Westar Resources Limited believes that its expectations reflected in these forward-looking statements are reasonable, such statements involve risks and uncertainties and no assurance can be given that actual results will be consistent with these forward-looking statements.

Appendix 1 - Tenement Schedule

Interest in Tenements as of 30 June 2026:

Tenement	Project	Location	Status	Interest at end of quarter
E16/505	Mt Finnerty	Southern Cross, WA	Granted	Ramelius JV: Westar 25% free carry
E51/2032	Gidgee North	Murchison, WA	Granted	100%
E53/1832-I	Gidgee North	Murchison, WA	Granted	75%
E53/1920	Gidgee North	Murchison, WA	Granted	100%
EL34118	Bunda Creek	Victoria–Daly region, NT	Granted	100%
ELA34358	Bunda Creek	Victoria–Daly region, NT	Application	100%
E38/4032	Jerrys Bore	NE Goldfields, WA	Granted	100%
E38/4034	Mount Strawbridge	NE Goldfields, WA	Application	100%
E53/2439	Gabbi Gundi	NE Goldfields, WA	Application	100%

Tenements Acquired or Disposed of during the June 2026 Quarter:

Tenement	Project	Location	Status	Interest at end of quarter
E53/2439	Gabbi Gundi	NE Goldfields, WA	Application	100%

About Westar Resources Ltd

Westar Resources is a Perth-based resource company focused on creating value for shareholders and the communities we live and work in, through the discovery, acquisition and development of high-quality gold and copper projects in supportive jurisdictions. Westar's projects are strategically located in the highly prospective Yilgarn Craton near Southern Cross, Sandstone and Laverton in Western Australia and in the frontier Birrindudu Basin in the Northern Territory.

3.	**Cash flows from financing activities**		
3.1	Proceeds from issues of equity securities (excluding convertible debt securities)	1,250	1,979
3.2	Proceeds from issue of convertible debt securities	-	-
3.3	Proceeds from exercise of options	-	-
3.4	Transaction costs related to issues of equity securities or convertible debt securities	(18)	(26)
3.5	Proceeds from borrowings	-	-
3.6	Repayment of borrowings	-	-
3.7	Transaction costs related to loans and borrowings	-	-
3.8	Dividends paid	-	-
3.9	Other (provide details if material)	-	-
3.10	**Net cash from / (used in) financing activities**	**1,232**	**1,953**

4.	**Net increase / (decrease) in cash and cash equivalents for the period**		
4.1	Cash and cash equivalents at beginning of period	1,154	1,203
4.2	Net cash from / (used in) operating activities (item 1.9 above)	(370)	(925)
4.3	Net cash from / (used in) investing activities (item 2.6 above)	(169)	(384)
4.4	Net cash from / (used in) financing activities (item 3.10 above)	1,232	1,953

Consolidated statement of cash flows		**Current quarter $A'000**	**Year to date (12 months) $A'000**
4.5	Effect of movement in exchange rates on cash held		
4.6	**Cash and cash equivalents at end of period**	**1,847**	**1,847**

5.	**Reconciliation of cash and cash equivalents** at the end of the quarter (as shown in the consolidated statement of cash flows) to the related items in the accounts	**Current quarter $A'000**	**Previous quarter $A'000**
5.1	Bank balances	147	454
5.2	Call deposits	1,700	700
5.3	Bank overdrafts		
5.4	Other (provide details)		
5.5	**Cash and cash equivalents at end of quarter (should equal item 4.6 above)**	**1,847**	**1,154**

6.	**Payments to related parties of the entity and their associates**	**Current quarter $A'000**
6.1	Aggregate amount of payments to related parties and their associates included in item 1	112
6.2	Aggregate amount of payments to related parties and their associates included in item 2	-

Note: if any amounts are shown in items 6.1 or 6.2, your quarterly activity report must include a description of, and an explanation for, such payments.

7.	**Financing facilities** *Note: the term "facility' includes all forms of financing arrangements available to the entity.* *Add notes as necessary for an understanding of the sources of finance available to the entity.*	**Total facility amount at quarter end $A'000**	**Amount drawn at quarter end $A'000**
7.1	Loan facilities		
7.2	Credit standby arrangements		
7.3	Other (please specify)		
7.4	**Total financing facilities**		

7.5	**Unused financing facilities available at quarter end**	
7.6	Include in the box below a description of each facility above, including the lender, interest rate, maturity date and whether it is secured or unsecured. If any additional financing facilities have been entered into or are proposed to be entered into after quarter end, include a note providing details of those facilities as well.	

8.	**Estimated cash available for future operating activities**	**$A'000**
8.1	Net cash from / (used in) operating activities (item 1.9)	(370)
8.2	(Payments for exploration & evaluation classified as investing activities) (item 2.1(d))	(169)
8.3	Total relevant outgoings (item 8.1 + item 8.2)	(539)
8.4	Cash and cash equivalents at quarter end (item 4.6)	1,847
8.5	Unused finance facilities available at quarter end (item 7.5)	-
8.6	Total available funding (item 8.4 + item 8.5)	1,847
8.7	**Estimated quarters of funding available (item 8.6 divided by item 8.3)**	3.42

Note: if the entity has reported positive relevant outgoings (ie a net cash inflow) in item 8.3, answer item 8.7 as "N/A". Otherwise, a figure for the estimated quarters of funding available must be included in item 8.7.

8.8 If item 8.7 is less than 2 quarters, please provide answers to the following questions:

8.8.1 Does the entity expect that it will continue to have the current level of net operating cash flows for the time being and, if not, why not?

Answer:
N/A

8.8.2 Has the entity taken any steps, or does it propose to take any steps, to raise further cash to fund its operations and, if so, what are those steps and how likely does it believe that they will be successful?

Answer:
N/A

8.8.3	Does the entity expect to be able to continue its operations and to meet its business objectives and, if so, on what basis?
Answer: N/A	
Note: where item 8.7 is less than 2 quarters, all of questions 8.8.1, 8.8.2 and 8.8.3 above must be answered.	

Compliance statement

1 This statement has been prepared in accordance with accounting standards and policies which comply with Listing Rule 19.11A.

2 This statement gives a true and fair view of the matters disclosed.

Date: ....30 July 2026...

(Name of body or officer authorising release – see note 4)

Notes

1. This quarterly cash flow report and the accompanying activity report provide a basis for informing the market about the entity's activities for the past quarter, how they have been financed and the effect this has had on its cash position. An entity that wishes to disclose additional information over and above the minimum required under the Listing Rules is encouraged to do so.

2. If this quarterly cash flow report has been prepared in accordance with Australian Accounting Standards, the definitions in, and provisions of, *AASB 6: Exploration for and Evaluation of Mineral Resources* and *AASB 107: Statement of Cash Flows* apply to this report. If this quarterly cash flow report has been prepared in accordance with other accounting standards agreed by ASX pursuant to Listing Rule 19.11A, the corresponding equivalent standards apply to this report.

3. Dividends received may be classified either as cash flows from operating activities or cash flows from investing activities, depending on the accounting policy of the entity.

4. If this report has been authorised for release to the market by your board of directors, you can insert here: "By the board". If it has been authorised for release to the market by a committee of your board of directors, you can insert here: "By the [*name of board committee – eg Audit and Risk Committee*]". If it has been authorised for release to the market by a disclosure committee, you can insert here: "By the Disclosure Committee".

5. If this report has been authorised for release to the market by your board of directors and you wish to hold yourself out as complying with recommendation 4.2 of the ASX Corporate Governance Council's *Corporate Governance Principles and Recommendations*, the board should have received a declaration from its CEO and CFO that, in their opinion, the financial records of the entity have been properly maintained, that this report complies with the appropriate accounting standards and gives a true and fair view of the cash flows of the entity, and that their opinion has been formed on the basis of a sound system of risk management and internal control which is operating effectively.
